Marriage and the Family
Professor Kate Hohl

**RESEARCH PAPER**

**DIRECTIONS FOR RESEARCH PAPER**

1. Select a sociological issue that impacts marriage and the family from the topics discussed in class, or from a Sociology in the News article.
2. Find a total of three articles: two articles from The New York Times and one article from a social science journal (e.g. The American Sociological Review, The Journal of Family Issues, etc). These articles cannot be ones that were assigned on the syllabus or Blackboard.
3. Your paper should answer the following questions:
   1. What is the general topic that this paper is addressing?
   2. What is the purpose of the research described in this paper?
   3. What is/are the author(s) hypothesis/hypotheses?
   4. What is/are the major conclusions(s) drawn by the author(s)? What do the results mean for the “real world”/how do they apply to you and me?
4. Relate the two newspaper articles to the article from the social science journal. The newspaper articles can either support the findings in the social science journal, or it can disagree with its findings.
5. You do not need to attach copies of your three articles to your papers. Be certain, however, to provide full citations to them. (See below for an example of a Works Cited page in ASA citation)
6. Select one of the sociological perspectives: Exchange Theory, Systems Theory, Conflict Theory, or Symbolic Interactionism. Interpret the issue from this perspective. Your interpretation should reflect what you have learned from the readings. Also, be specific about which sociological perspective you are using in your paper (e.g., "I will use the Symbolic Interactionist perspective to explain....").
7. The final draft of the paper must be between 3 and 5 pages in length.

**SUBMISSIONS**

Please submit your written assignment on Blackboard by the beginning of class the day the paper is due. The papers should be in Microsoft Word format for the IBM-compatible computer (PC). It must go through Safe Assign. Hard copies of papers will not be accepted. Late submissions or papers not submitted in the proper format will be penalized according to the time overdue. Expect to lose a point for every day that the assignment is late.

CITATIONS/QUOTATIONS WITHIN THE PAPER

Direct quotations should be placed in quotation marks; indent lengthy quotations.
Make sure to follow a quote or a piece of information that you learned from the article by following citing the source by the last name and the year the article was written at the end of the sentence.

Ex. The researchers found that divorce rates have actually been on the decrease for the past five years (Smith 2015).

WORKS CITED PAGE/BIBLIOGRAPHY

NOTE: Written work for this course must use the ASA (American Sociological Association) citation style:

1. The first line of each citation begins flush left. The second and subsequent lines are indented three spaces. This is called a “hanging indent”.
2. The list should be arranged alphabetically by the author’s last name. Include the first name and last names for all authors.
3. Invert the author’s name. If there are two or more authors invert only the first author’s name.
4. If the source does not have an author, alphabetization is by the first word in the title.
5. Arrange multiple items by the same author in order by year of publication, oldest date first.
6. In other words, DO NOT just copy and paste the URL of the websites where the article from the social science journal or newspaper articles are found. You must follow the following rules for citing your sources:
